

This comment is to inform you that Indiana's Telephone Privacy Law should not be altered. Before the law and my chosen participation in the process I would receive several (5-8) unwanted solicitations at my home. Since the my voluntary participation in this program My family can eat dinner in peace. We can get the childrens home work done in peace. We can now answer our phone in the evening instead of screening calls with the answering machine like we did before this law was inacted. Since my voluntary participation in this program I'm glad to say I cannot remember the last time I received an unwanted soliciation. The law is working great in my opinion and should not be changed in any manner that would allow any unwanted solicitations to occur. Companies that are currently doing business with me can get a hold of me if needed for current issues. If it is a business that I want to be kept informed of "future offerings" with they always give me the option to select this service IF I WANT IT.

DON'T MESS WITH THE EXISITING LAW!!      Thank you for your consideration in this matter

J.D. Tammen
